USER INTERFACE AND DESIGN

COMAPARSION OF UI DESIGN BETWEEN TWO FIGMA CREATION

bad website:

Black Coffee	Cappuccino	Cafe Latte
Strong and bitter flavor Freshly brewed every morning No sugar added	Hot coffee with thick milk foam Smooth taste Customer's favorite drink	Milk-based coffee Light and creamy Served hot in a cup Smooth coffee flavor

Why This Coffee Shop Website Feels BAD:

1. Design Style:

o Uses inconsistent and mismatched background colors.
o Displays coffee images in different styles and sizes.
o Lacks proper alignment and visual balance across sections.

2. Content:

o Shows three coffee varieties with basic descriptions.
o Text formatting is inconsistent and lacks hierarchy.
o Does not provide prices or clear call-to-action buttons.

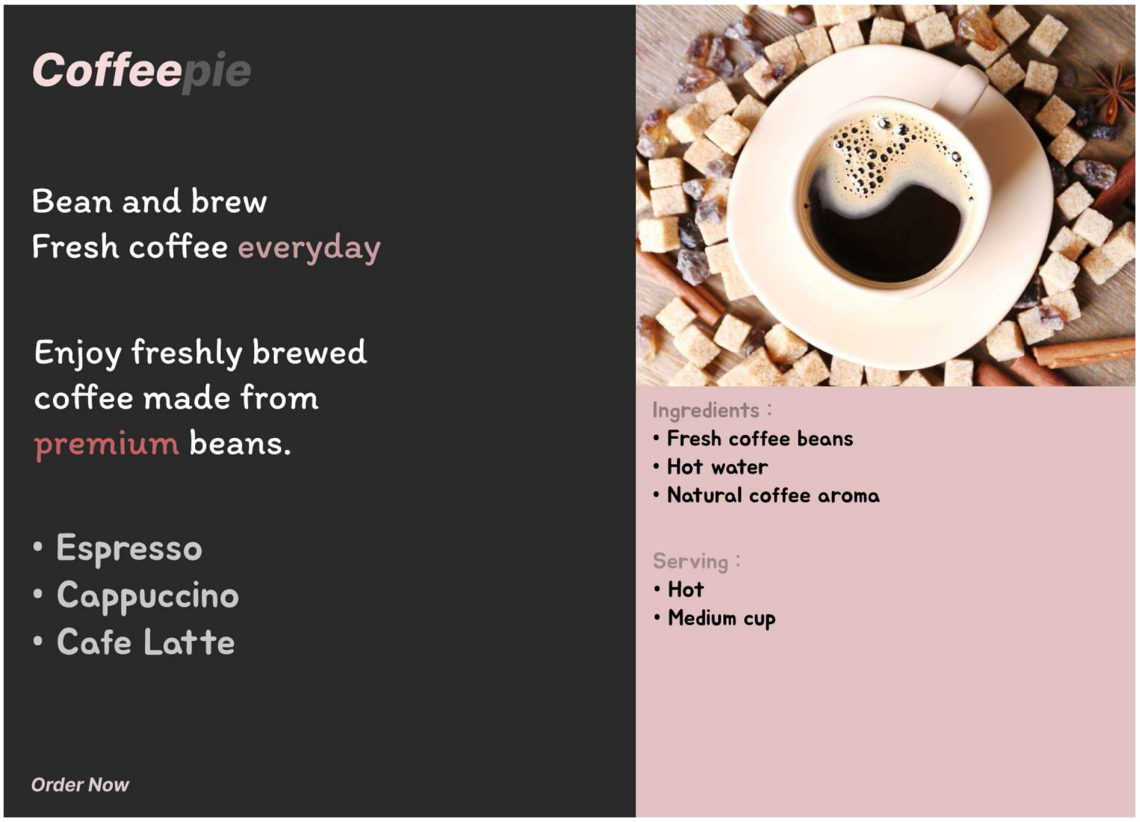
3. Navigation:

o Navigation elements are unclear and poorly placed.
o Lacks proper labels, making it confusing for users.

4. Purpose:

o Appears to showcase coffee items without a clear user flow.
o Fails to effectively guide users toward ordering or interaction.

Good website;



Why This Coffee Shop Website Feels GOOD:

1. Design Style:
o Uses a clean and consistent color palette throughout the layout.
o Displays coffee images in a uniform style and appropriate size.
o Maintains proper alignment and visual balance across all sections.

2. Content:
o Presents coffee varieties with clear names and simple descriptions.
o Text is well-structured with proper hierarchy and readability.
o Includes useful details such as ingredients and serving information.

3. Navigation:
o Navigation elements are clear and easy to understand.
o Buttons and labels are placed properly for smooth user interaction.

4. Purpose:
o Designed to create a pleasant and engaging user experience.
o Effectively guides users toward ordering and exploring the menu.
